If a browser or operating system is no longer supported by the vendor, it is not supported by Marquette's OLB. Additionally, beta versions of browsers, and operating systems are not supported. Remember, for maximum security, always use the latest internet browser version.

It's important to know that the "Compatibility View Settings" is no longer supported by OLB. To bring compatibility up-to-date and ensure trouble free online banking, follow these simple steps:

1. From Internet Explorer, go to Tools > Compatibility View Settings.
2. If MarquetteSavings.bank is located in the websites you've added to Compatibility View: Window, select it and click "Remove."
3. Uncheck, "Display internet sites in the Compatibility View" check box.
4. Click "Close."
5. Close out of all Internet Explorer windows so changes can take effect.

If you still have questions you can call, (814) 455-4481 and choose "Option 5."
