

How to Download and Create your SecurLOCK™ account

Follow these easy steps to get started with SecurLOCK™:

1. Download the SecurLOCK app  from the Google play or Apple iTunes store.
2. You will have two options once the app is opened, "Sign Up Free" or "Login." Since this is your first time using the app, select "Sign Up Free." Note: Once you have registered your account, you will be able to use the "Login" button whenever you open the app.
3. You will need to register your account by adding your Marquette debit card number, then select "Next." Multiple users can register the same card.
4. Next you will see the "Card Verification" screen where you enter the security code, expiration date and billing address associated with your Marquette Debit Card then tap "Next."
5. You will now need to go through the authentication process by putting in the last four digits of your Social Security Number.
6. Select the "Accept" button once you have read the terms and conditions and the Privacy Policy.
7. Now you can create your account. The system will have a drop down box with suggested user names based on a combination of your first and last name. Choose your name then create a password.
8. Then complete the "Personal Information" section. The email address used in this section will be the email used for password resets. Once you click "Next" you will receive a message congratulating you on successfully creating a SecurLOCK account.
9. Tap "OK" to go to the login screen. Use your new username and password to log into the app.
